The Aesthetic Edit Difference

Appearance, well-being, and lifestyle: We acknowledge the inseparable connection between how you look, feel, and live. We go beyond traditional treatments, offering a carefully *EDITED* experience that resonates with your unique individuality.

Hi, nice to meet you! We're...

Vanessa Bennington, RN, FNP-BC

Founder | Injector | Artist | Educator

Vanessa Bennington is a nationally recognized Nurse Practitioner and the founder of The Aesthetic Edit ATX, a boutique aesthetic practice grounded in precision, creativity, and holistic care. With over 18 years of experience in medical aesthetics, Vanessa is known for her natural, nuanced approach to full-face rejuvenation—where each treatment is guided by anatomy, artistic instinct, and whole-body insight.

She blends her background in critical care nursing, hormone therapy, and functional medicine with her lifelong passion for the visual arts—treating every face as a living composition. Her signature style? Subtle, balanced transformations that restore harmony without ever looking "done."

At The Aesthetic Edit, Vanessa leads with intention, offering a multimodal, patient-centered approach that integrates injectables, regenerative medicine, and skin-focused technologies for lasting, refined results. Clients come to her for more than procedures—they come for her honesty, her eye, and her ability to elevate without erasing.

Chuck Bennington,

Co-Founder | Coach | Transformation Guide

Chuck Bennington is a dedicated coach, consultant, and co-founder of The Aesthetic Edit ATX, a boutique aesthetic practice in Cedar Park, where he collaborates with his wife, Vanessa Bennington, NP-C, to empower clients through transformative experiences. With 15+ years of experience in fitness, business development, and personal growth, Chuck specializes in guiding individuals and organizations toward meaningful change by reshaping behaviors, identities, and visions.

Chuck and Vanessa's journey together began in 2008 when they met through CrossFit, sparking a partnership rooted in shared values of health, resilience, and connection. As coach and program developer, he honed his ability to inspire transformation, learning from the most challenging client cases to build stronger systems and relationships. At The Aesthetic Edit, Chuck focuses on client engagement and operational excellence, ensuring every interaction reflects the practice's commitment to holistic care and personal empowerment.

Beyond the medspa, Chuck is a trusted mentor who helps clients and businesses redefine their potential. He facilitates identity transformation, drawing on lessons from thousands of clients, to guide others in aligning actions with purpose. His approach is practical yet profound, blending behavioral strategies, business acumen, and a deep understanding of relationships to foster lasting growth.

Together, Chuck and Vanessa create a space where clients don't just enhance their appearance—they evolve into their best selves. Chuck's mission is clear: to help people thrive by embracing transformation with authenticity, discipline, and heart.

Unlock Your Youthful Glow

Neuromodulators

Daxxify | Dysport | Xeomin | Jeauveau | Letybo

Our advanced neuromodulator treatments—featuring Daxxify, Dysport, Xeomin, Jeuveau, and Letybo—smooth fine lines and dynamic wrinkles by temporarily relaxing targeted facial muscles. These injectable treatments not only soften the appearance of existing lines but also help prevent new ones from forming, giving you a refreshed, more youthful look.

		BSA
▪ Daxxify	$16/unit	$14.40/unit
▪ Dysport	$5/unit	$4.50/unit
▪ Xeomin	$13/unit	$11.70/unit
▪ Jeaveau	$13/unit	$11.70/unit
▪ Letybo	$12/unit	$10.80/unit

Enhance Your Natural Beauty

Fillers and Biostimulators

These innovative, non-invasive treatments offer individuals a dynamic solution to enhance their appearance with natural-looking rejuvenation. By stimulating collagen production, you can effectively address the telltale signs of aging, including fine lines and wrinkles, while imparting a soft, supple texture to your skin. Enjoy long-lasting results for up to two years–a cost-effective choice for those seeking minimal maintenance.

Sculptra, Radiesse, and traditional dermal fillers are both valuable tools to achieve your aesthetic goals without the need for surgery. While traditional fillers offer immediate volume, Sculptra takes a unique approach by stimulating collagen production gradually. This results in a more natural-looking rejuvenation, avoiding the risk of overfilled or sudden changes Hyper-dilute Radiesse is used in the face, neck, and body to give a filler-like effect in addition to stimulating collagen and elastin and is an excellent choice for those who want to address volume loss in a subtle, gradual manner.

		BSA
▪ All HA Fillers	$750/syringe	$675/syringe
▪ All Biostimulators (Sculptra/Radiesse/PDGF)	$850/vial	$765/vial

Platelet-Rich Plasma (PRP), Platelet-Rich Fibrin (PRF) & Cellenis DermaFiller

PRP and PRF

Harness the regenerative power of your own platelets to rejuvenate your skin and restore youthful volume. PRP and PRF treatments utilize your body's natural healing factors to stimulate collagen production, improve skin texture, and enhance overall radiance.

PRF DermaFiller is a natural alternative to traditional dermal fillers, using your body's own platelets to enhance volume and improve skin health.

		BSA
▪ PRP Topical	$350	$315
▪ PRP Microneedling	$650	$585
▪ PRP Hair	$850	$765
▪ DermaFiller Undereye & Tear-Trough	$850	$765
▪ 11ML DermaFiller (yields ~5 syringes)	$1250	$1125
▪ 22ML DermaFiller (yields ~10 syringes)	$2000	$1800

SKIN REJUVENATION

Smooth, Silky Skin Starts Here

Morpheus8 RF Microneedling

Morpheus8 is a cutting-edge, minimally invasive treatment that merges radiofrequency energy with microneedling to deliver rapid, visible improvements. Using ultrafine needles, the procedure creates micro-injuries in the skin while simultaneously delivering radiofrequency energy deep into the tissue, amplifying its rejuvenating effects. Designed for use on the face and body, Morpheus8 reaches deeper layers of the skin than many other technologies, promoting long-lasting, transformative results.

		BSA
Face only	$1250	$1125
Face and 1/2 neck	$1450	$1305
Face and full neck	$1650	$1485
Small body area	$1450	$1305
Large body area	$1950	$1755

Facial and Body Rejuvenation

Quantum Face & Body Contouring

QuantumRF Face and QuantumRF Body combine advanced radiofrequency (RF) technology with precision sculpting to tighten, smooth, and contour the skin without surgery. These versatile treatments can target both the face and body, helping reduce unwanted fat, stimulate collagen, and improve skin firmness. Treatment time varies with the treatment area(s), but involves minimal downtime and results that continue to improve as collagen builds to reveal smoother, tighter skin that looks refreshed and refined.

- Starting at $2500+
  Consult required

Radiant Skin, Redefined

Opus Plasma® Skin Rejuvenation Therapy

Opus Plasma® is a non-invasive procedure that uses plasma and radiofrequency to tighten and resurface the skin, providing a radiant and youthful complexion. The unique precision and versatility of Opus Plasma® make it perfect for addressing various skin concerns, from fine lines and wrinkles to acne scars and unwanted pigmentation. It's a quick and efficient treatment with minimal downtime, ensuring you can quickly get back to your routine with revitalized and smoother skin.

Opus Plasma® offers tailored treatment plans for different body areas, such as the face, neck, hands, and abdomen, and provides lasting results.

		BSA

LASER THERAPY

Reveal Your Flawless Skin

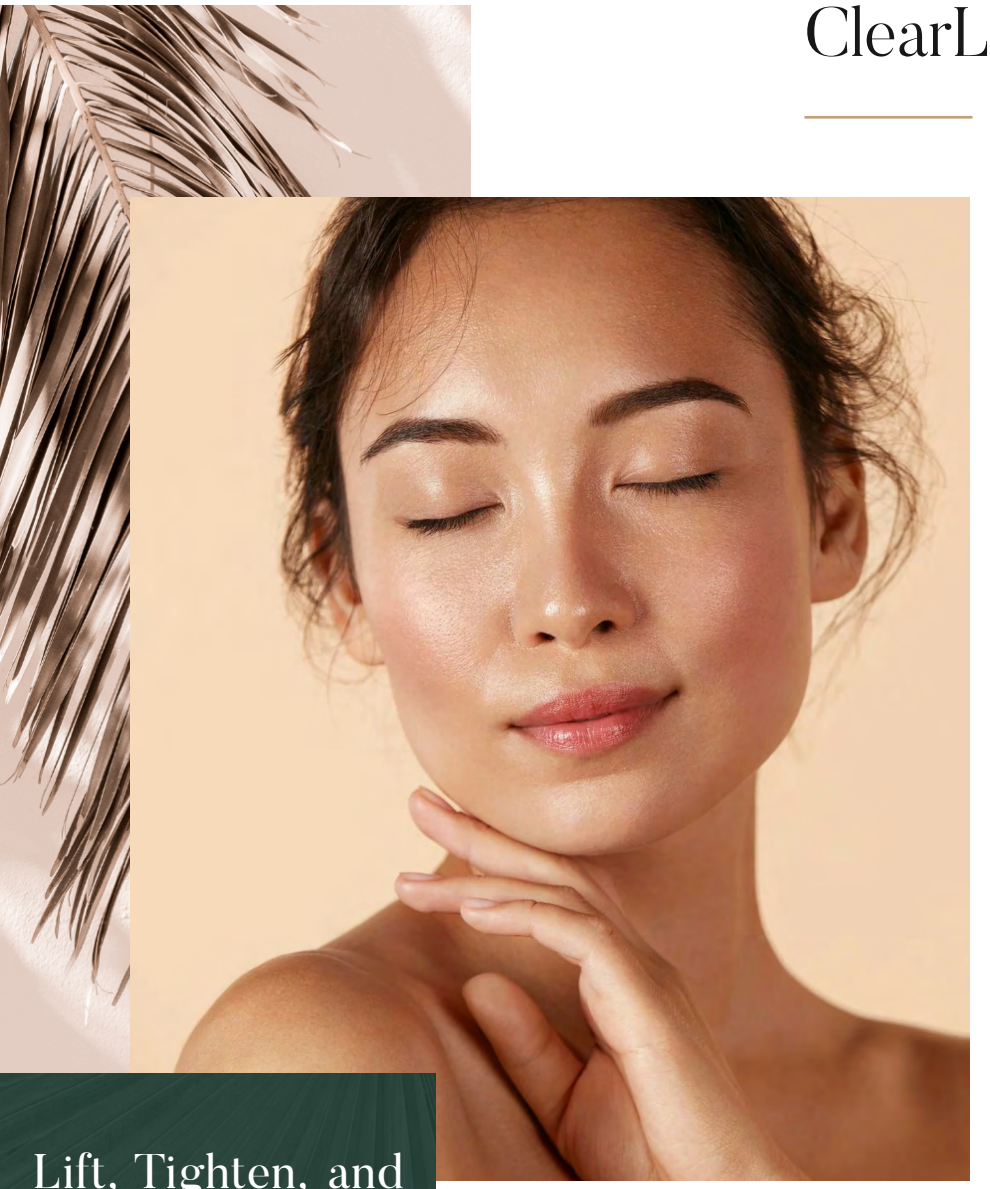

Intense Pulsed Light (IPL) Laser Facials

Experience the transformative effects of IPL Laser Facials, also known as BroadBand Light therapy—an advanced, non-invasive treatment that targets a wide range of skin concerns, including hyperpigmentation, acne scars, sun damage, redness, and even unwanted hair. At our practice, we use **DyeVL**, a cutting-edge IPL technology that offers enhanced precision and effectiveness for more even-toned, radiant skin.

IPL Laser Facials use intense pulsed light (IPL) technology to simultaneously address multiple skincare concerns. This treatment effectively evens out skin tone, reducing the appearance of brown spots and redness while stimulating collagen production to reduce fine lines and wrinkles. Targeting a variety of concerns, including acne scars and enlarged pores, this treatment offers impressive results with minimal downtime, making it a convenient option for those seeking enhanced skin without disrupting their daily routines.

		BSA
▪ Face	$350	$315
▪ Face and 1/2 neck	$550	$495
▪ Face and full neck	$750	$675
▪ Face, neck and chest	$1000	$900

ClearLift

Lift, Tighten, and Glow—Without the Downtime

ClearLift is a non-invasive laser treatment that rejuvenates the skin from within, delivering powerful results with minimal downtime. ClearLift penetrates deep beneath the surface to stimulate collagen production, improve skin tone, and reduce the appearance of fine lines, wrinkles, and pigmentation. Unlike traditional laser treatments, ClearLift is gentle enough for all skin types and can be used on delicate areas like the neck and around the eyes.

		BSA
Face	$350	$315
Face and 1/2 neck	$550	$495
Face and full neck	$750	$675
Face, neck and chest	$1000	$900

Tattoo Removal

Say Farewell to Unwanted Ink

This method is quick, minimally painful, safe for all skin types, and offers customizable treatment plans. The process of laser tattoo removal involves focusing high-intensity laser pulses directly on the skin, with a precise aim at the ink particles within the tattoo. This concentrated energy generates intense heat, effectively fragmenting the ink particles into smaller components.

The number of sessions depends on factors like tattoo size and ink amount, typically ranging from 3 to 20 sessions, spaced several weeks apart.

- Single area from $100-$750 per treatment
  Consult required

HAIR RESTORATION

Comprehensive Hair Restoration Program

Rediscover Hair, Restore Confidence

Our comprehensive hair restoration program is designed to meet you where you are. Using a personalized combination of TED (Transepidermal Delivery) treatments, targeted supplements, peptides, and medications when appropriate, we address hair loss from multiple angles to support healthier, fuller hair.

The TED treatment uses low-frequency ultrasound to create microchannels in the scalp, allowing growth factors, peptides, and nourishing ingredients to reach deeper, where they can be most effective. This helps stimulate new hair growth, improve circulation, slow hair loss, and enhance hair thickness, strength, and overall vitality.

Treatments are comfortable, require no downtime, and results develop gradually as hair growth cycles improve, revealing fuller, healthier-looking hair over time.

- Starting under $1000
  Consult required

WELLNESS TREATMENTS

Discover
a Leaner,
Healthier You

GLP-1 Weight Loss

Our personalized GLP-1 weight loss program is designed to help you achieve your goals without compromising your health. GLP-1s, initially used for diabetes management, have emerged as a powerful tool for substantial weight loss, with participants in clinical trials experiencing an average weight loss of 15% to 20%. This innovative approach not only curbs appetite but also enhances health markers such as blood pressure, cholesterol, and triglyceride levels.

At The Aesthetic Edit, we understand that each individual's weight loss journey is unique. Our comprehensive approach begins with a consultation to determine if GLP-1s align with your needs. Whether you've struggled with traditional weight loss methods, have a high BMI, or have weight-related health concerns, our multi-step assessment ensures a personalized plan tailored to your specific situation.

▪ Semaglutide	$450/month
▪ Tirzepatide	$650/month

*Please note that the prices indicated here are based on the average recommended dosage and the actual cost may vary depending on dosage requirements.

Peptide Wellness

Feel Better.
Perform Better.
Age Better.

We believe wellness and aesthetics go hand in hand. At the Aesthetic Edit, our Peptide Wellness programs are designed to support whole-body optimization using advanced peptide therapies tailored to your unique goals, lifestyle, and health needs.

Peptides are naturally occurring chains of amino acids that help regulate essential functions throughout the body. When used strategically, peptide therapy may support weight management, muscle development, recovery, cognitive performance, healthy aging, healing, aesthetics, libido, skin health, and overall vitality. Peptide therapy is most commonly administered through small at-home injections, with other delivery methods used depending on the specific protocol.

Whether your goal is to feel stronger, recover faster, improve focus, enhance body composition, or support graceful aging, our personalized approach helps you look and feel your best from the inside out. Treatments are tailored to your individual needs and designed to complement your wellness journey with thoughtful, customized care and long-term support.
